Mohammed Wael

Data Analyst | Business Intelligence | Power BI | SQL | Python

Cairo, Egypt • mohammedweal2003@gmail.com • 01142949382 • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Power BI, SQL, Python, and Excel, turning complex datasets into clear, actionable business insights. Built end-to-end interactive dashboards covering sales, marketing, customer behavior, and fleet operations, with KPI reporting, data cleaning and transformation (Power Query, DAX), and trend analysis. Business Information Systems student at Helwan University (GPA 3.56/4.0), currently expanding skills in Databricks, Git, and GitHub. Seeking a Data Analyst or Business Intelligence internship / entry-level role to support data-driven decision-making.

TECHNICAL SKILLS

Tools & Technologies: Power BI (Advanced), SQL (SQL Server), Python (Pandas, NumPy), DAX, Power Query, Excel (Advanced), Tableau, Databricks, Git, GitHub

Data & Analytics: Data Analysis, Data Visualization, Interactive Dashboards, KPI Reporting, Data Cleaning & Transformation, ETL Pipelines, Trend Analysis, Customer Segmentation, Customer Lifetime Value (CLV), Campaign Performance Tracking, Conversion Rate Analysis, A/B Testing Insights

Soft Skills: Data Storytelling, Cross-functional Collaboration, Problem Solving, Presentation

EXPERIENCE

Data Entry Assistant

KoraStats | Apr 2025 – Present

- Enter, verify, and maintain sports data records within the KoraStats platform.
- Ensure data accuracy, integrity, and consistency across datasets to support reliable sports analytics and reporting.

Data Analyst — Power BI Engineering Track

Digital Egypt Pioneers Initiative (DEPI) | Oct 2024 – Jul 2025

- Built end-to-end Power BI dashboards to analyze sales, customer, and operational data for real-world business scenarios.
- Cleaned and transformed datasets using Power Query and created calculated measures with DAX to prepare data for analysis and reporting.
- Completed a final capstone project covering the full lifecycle from data ingestion and cleaning to visualization and insight presentation.
- Collaborated in a team to translate business requirements into KPI-driven visual analytics solutions.

PROJECTS

E-Commerce Marketing Analytics Dashboard — Power BI [GitHub]

- Analyzed a large-scale e-commerce dataset tracking $23.16M+ in revenue across multiple channels and customer segments.
- Built KPI scorecards for Customer Lifetime Value (CLV) and Average Order Value (AOV) to assess campaign health and guide marketing investment decisions.
- Segmented customers by purchase behavior to identify high-value cohorts and support retention strategies.

Adidas Multi-Channel Sales & Marketing Dashboard — Power BI [GitHub]

- Developed an end-to-end dashboard covering $899.90M+ in total sales and $332.13M+ in operating profit across regions and retail channels.
- Identified Men's Street Footwear as the top-performing product category and provided recommendations for marketing spend allocation.
- Compared online vs. in-store performance trends to guide omnichannel strategy optimization.

SuperStore Sales Performance & Trend Analysis — Power BI [GitHub]

- Visualized $2.3M in total sales across 4,922 orders with KPIs including Average Order Value ($459.5) to support sales and marketing planning.
- Identified Technology as the leading category (31.19% of revenue) and December as the peak sales period, informing promotional calendar decisions.

Fleet Management & Cost Efficiency Dashboard — Power BI [GitHub]

- Analyzed total maintenance cost, fuel consumption, and utilization rates across a full vehicle fleet to surface operational inefficiencies.

- Delivered data-driven recommendations to reduce downtime and improve driver performance through historical trend analysis.

EDUCATION

Bachelor of Business Information Systems (BIS)
Helwan University, Faculty of Business Information Systems | Sep 2023 – Jul 2027 | GPA: 3.56 / 4.0 (Excellent)

CERTIFICATIONS

- Data Analyst in Power BI — DataCamp | Aug 2025
- Data Visualization in Power BI — DataCamp | Jun 2025
- Data Transformation in Power BI — DataCamp | Apr 2025
- Joining Data in SQL — DataCamp | Jun 2025
- Intermediate SQL — DataCamp | Jun 2025
- Introduction to SQL — DataCamp | May 2025
- Data Engineering Basics for Everyone — edX | Aug 2025
- Final Project Completion — Digital Egypt Pioneers Initiative (DEPI), Egyptian Government | Jul 2025
- Advanced Data Analytics — Coursera | 2025
